

Vaccine Tips

February 2024

Keep spreading the love by making sure young patients are protected against RSV!

- Continue administering remaining doses of [nirsevimab](#) to infants after birth through the end of March!
- See the [RSV FAQs page](#) with updated information on immunizations for infants and pregnant people.
- Got unused/unexpired doses of prenatal ABRYSVO and nirsevimab? Save them for Fall 2024!
 - Both have a long shelf life, so label appropriately and keep them safe for the upcoming respiratory virus season.
 - Please note: unexpired doses cannot be returned to McKesson!
- View our [Vaccine Fact Sheets](#) page to quickly reference storage instructions, administration routes, billing codes, and more!
 - [Nirsevimab \(Beyfortus\)](#)
 - [ABRYSVO, AREXVY](#)
- For more info on RSV, check out our [RSV resources page](#).
